Mesers. Mortimer and Monobray: -Gents - You may think it strange that I have taken the liberty to write you this letter, but I do so under circumtances that justify it. As you are the Agents for HAMPTON'S VEGETABLE TINCTURE, I deem it expedient to address you this note, hoping it may be a part of the honorable means of giving this medicine notoriety which its merits deserve. Being in the habit of vending medicines which re

late to the patent and regular system, I consider myself, to some extent, a judge of the real merit of many of them. My experience teaches me that "Hampton's Tincture" is a Medicine of real merit of intrinsic value. When I say this, I do not say that it is an infallible cure in all cases, but I mean to say that Hampton's Tincture will favorably operate in all diseases originating from a want of proper secretions of the gastric juices, bad digestion, and conse quently bad deposits of animal matter from that ource. I believe that many diseases located in va rious parts of the system, such as Inflamation, Ulcers, Scrofula, &c., originally have their being in the stomach, from bad food, bad digestion, and consequently bad depositions of the circulation to those parts; and I will believe Hampton's Vegetable Tino-

ture will even react in those cases. Having found out myself what it is, I recommend It to others in such cases as I have described, and I have done it upon the "no cure no pay" system, and I have yet to have the first bottle returned, or the first objection about the pay. It is a great pity, it cannot be more extensively circulated among the people.

In general debiliations, I warrant it and as I said before. I have procured a trial of it in this way, which otherwise I could not; the people have been humbugged by patent medicines so long, that they are atraid of alt. This is clearly a stemach medicine, it works all its wonders there, and in all such cases it is a specific, if anything in the world

BEECH DROP,

OR CANCER ROOT: OR CANCER ROOT: (OBOBANCHE VIRGINIANA,)

For the spid cure of Cancer, Ulcerated Sore Throat, White Swelling, Bronchitis, Dropsy, Dyspepsia, and all Diseases arising from an Impure state of Prepared by J. L. KIDWELL, Druggist, George-History of the Beech Drop, or Cancer Root.

THE BEECH DROP, OR CANCER ROOT, is figured and lescribed by the celebrated Dr. Barton, in his Medi-

A knowledge of its extraordinary medical virtues was first learned from the North American Indians, ygwhom it was used for the treatment and cure of ancer, Rheumatism, Scrofula, and Consumption. The Fluid Extract of Orobanche is composed entirely of the products of the vegetable kingdom, so combined as to possess in the greatest perfection the virtues and powers of an alterative and purifier of the blood. It is, therefore, applicable as a never-failing remedy in Scrofule, whether suppurative or clandular, Chronic Rheumatism, Cancerous diseases n any form, especially cancerous diseases of the Uterus. In all complicated cases of Scrofula and syphilis, and in cases where the syphilitic virus of he parent causes a development of Syphilis or Scrofuls in the child, this is the only remedy upon which a bope of recovery can be reasonably founded.

It is useful in all scaly skin diseases, Ulcarated Sorn Throat, White Swelling, diseases of the bone, and all cases of an ulcerous character. It is also particularly useful in Chronic and Nervous Complaints, occurring in debilitated and cachetic constitution; in Bronchitis, Dyspepsia, Chronic Enlarge ment of the Liver and Spleen, Dropsy, diseases of the Kidneys and Blander, and all diseases arising from in impure state of the blood.

The estimate that is accorded this preparation the medical profession, and indeed by all competent to judge of its merits, may be seen in the fact, that it is constantly prescribed by many of our most eminent physicians, and that it has been presented to their students as worthy of their especial attention. The following certificate is given from the very cest authority—John R. Jones, late Assistant Clerk the House of Representatives. His recovery is ensidered extraordinary. Most of the members of cth Houses of Congress visited him at the St. Marles Hotel, and expressed their astonishment at the wonders effected by the Compound Fluid Extract

GEORGETOWN, Jan. 31, 1853. DEAR SIR: It is with a sense of gratitude, and desire that others suffering from disease may be induced to use the Extract of Beech Drop, that I consent to give the following statement for publicity. Until the last month I was a sufferer from Chronic Rheumatism, from the effects of which my health war so completely undermined and broken up, that l lost 20 or 30 pounds of my usual weight. Anxiou to find some relief, I resorted to the most approved patent medicines. I used a number of bottles o l'ownsend's Sarsaparilla, and exhausted the list of Liniments, without any effect. My joints now be came enlarged, and the pains in my limbs so excruciating, that they had to be rubbed two or three times a night. The muscles of my legs were so contracted that I presented the appearance of a man of sixty-five when I walked. In this condition, more through curiosity than a belief in its good effects, commenced the use of your Beech Drop, and in ten or twelve days the swelling about my joints had subided; and now, afier the use of three bottles. I ar able to resume my business, and can walk with the same ease and comfort that I formerly did.

Yours truly, &c., Second street, Georgetown.

Georgetown, February 1, 1854. MR. KIDWELL-SIR: A female member of my family, aged 14 years, had been affected with a painful Scroulous affection of the ear for 4 years, and although he best medical advice was had here and in Baltimore, still the disease increased and the pain often ecame almost intolerable. Fortunately for us, your Seech Drop was recommended to be used, and I have great pleasure in stating that it has been eminently ccessful. The Mucous Secretions has not made its ppearance for some months; the health of the pa tient has been quite restored; all the parts that were heretofore so much diseased have become sound and well, and I am much gratified in being able to

state to you, that I regard it as, having been accomplished entirely by the use of your Beech Drop.

I am very respectfully, your obedient servant,

Washington, D. C., December 12, 1853. John L. Kidwell: Dear Sir-This is to certify that my daughter, aged 2 years, was affected with Scrofla of a very aggravated form—the disease had so undermined her health, that life was entirely despared of. Hearing of the efficacious effects of your Beech Drop in such cases, I procured it, and after using one bottle so evident was her improvement hat we persevered with it. When she had used 4 bottles, her health was perfectly restored. Our eighbors and friends who saw her condition prior o using the Beech Drop, unite in attributing to your remedy the credit of her recovery.

Very respectfully yours, WILLIAM R. McLEAN. To John L. Kidwell, Georgetown. Cure of Scrofula of ten years standing. The reputation of Mrs. Emerson, for the treat ment of Ulcers and Scrofuls, &c., extends over the greater part of Maryland, Virginia, and the District of Columbia. She will che-rfully give the particu

Mr. Kidwell-Dear Sir: I had a lady under my charge of the highest respectability, afflicted with a complicated case of Scrofula, which entirely baffled he physicians for eight or ten years. Failing my self to arrest the disease, I was induced to use your reparation of Beech Drop, the effect of which has consider her perfectly restored. I am now determined to use it constantly with my patients, fully satisfied that it excels any preparation known for such diseases.

We find the following interesting anecdote, illustrating the value of a recent American invention, in an English paper of the 18th February:

In Dagnestau a young Lesghian chief

being severely wounded during one of the frequent razzias of the Russians, took refuge in a ruined sakli, " in order to apply bandages to his wounds. While thus employed he was discovered by a party of twelve dismounted dragoons, who immediately gave chase on his taking flight. Being fleet of foot, for a short time he outran them, during which time such of them as had their carbines leaded fired at him ineffectually. Having crossed one of the flexible bridges, common in that country, and which was over a rapid torrent at the foot of a mountain, the fugitive, finding himself unable to proceed much further, and having time to put his arms in order, stood at bay under a projecting rock. With yells of delight and uplifted sabres, the Russians approached the bridge. The foremost nearing him cried, "Yield, dog!" "Not while I have twelve lives at my girdle," cried the undaunted mountaineer. The Russians in the rear laughed loudly at the boast : but he in advance fell dead, pierced through and through by a bullet, nearly at the feet of the Lesghian. The second soldier stumbled over his dead comrade. and as he rose received a shot which caused him to fall severely wounded. The next seeing the same weapon, which

had twice been discharged, still pointed, rushed on: but, to the surprise of the Russians, a third shot was fired at him: untouched, however, he was about to cut down the Lesghian, when a fourth discharge scattered his brains on the rocky parapet, and his lifeless body tumbled into the torrent beneath. Three of the Russians had now fallen. What devil of a pistol is this, that speaks so often ?" cried the survivors to each other. The Lesghian still stood firm, merely folding his pelisse of sheep's skin round his left arm, ready to receive a blow, a precaution not unheeded, since now two Russians, abreast, were on the point of assailing hun. Certain of their prey, these advanced more cautiously than their predecessors. This time two deliberate shots brought them down right and left; each fell pierced near the region of the heart. The remaining soldiers were amazed. The Lesghian, faint with the loss of blood, and feeling his strength fast ebbing, now drew forth another pistol, a movement unobserved by the enemy, and rapidly fired three shots at the group of Russians, some fifty vards distant at the other other end of the bridge. Owing to his sight being now dim, only one shot took effect, wounding one of the dragoons in the shoulder. "Let us fly."

my." Accordingly they precipitately fled, just as the Lesghian sank down exhausted at the foot of the rock. At a distance they ventured to look back. "It bath vanished in the midst," cried the superstitious Muscovites. The Lesghian chief was succored by some of his own people, and ere long recovered from his hurt, as did the wounded Russian. At his bridal feast, some four months after, the pistols, which were a pair of Colt's revolvers, and were a gift

The Russian prisoner, soon reconciled by kind treatment to his position, has had the cruel horse-hairt removed from his heel, and has often cleansed and leaded those identical specimens of the fatal weapons, destined to effect such a revolution in the warfare of the world.

The story of the "devil's pistol" was long told among the simple Russian soldiery, t when conversing on their weary march, as the winding column ascended some interminable mountain, or when the greatful Samovar (kettle) gave promise of tea at the close of their day's journey. Now, the partial introduction of the arm among the officers has in some degree dissipated the telling effect of the story, but many still devoutly believe that the young Lesghian cheit was no other than the Prince of Darkness himself out on a sporting expedition for the express

purpose of bagging Russian soldiers. The "sakit" is the babitation of the eastern Cau easus. It is constructed of unhewn stones, conneeted with clay instead of mortar. A tuft of horse-hair is commonly inserted by the
